

MoM of BlueButterfly Weekly Status Meeting

(July 06, 2023 to July 11, 2023)

Agenda: Discuss weekly work progress report of BlueButterfly

Attendees:

- **Tekyz:** Gayathri P Borker(Host), David Hirschfeld, Praful Chougale, Aditya
- **BlueButterfly:** Kristy Young, Donna

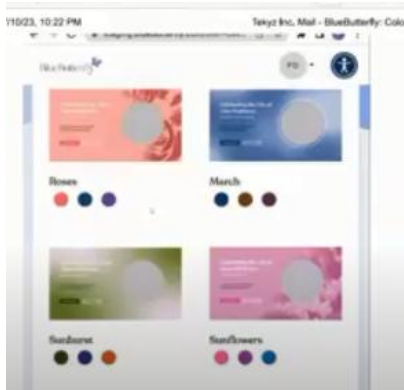

Actionable for the BlueButterfly

Time in Video	Actionable
1.12.20	After the launch, Kristy will send the priority list for the gradients that Tekyz have to load up first.
1.19.30	Notify Tekyz if there are any blockers before launch.

Agreed Points by BlueButterfly

Time in Video	Agreement
15.00	If a new memory or a condolence is added, currently it does column first. But it should be rows.
32.10	For the Person's name on the memorial page, the first letter of the name will always get capitalized.
35.37	On the Desktop till 10 dots for colour options are fine on the screen. 

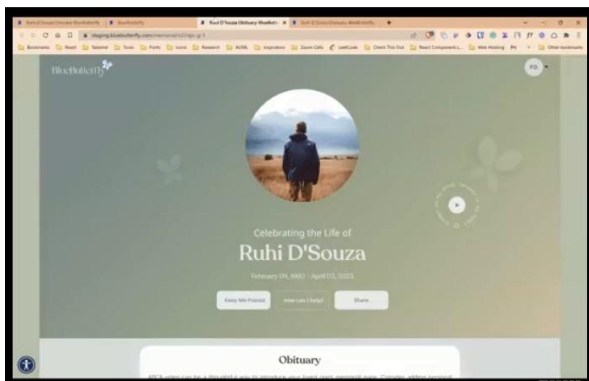

On the mobile the dots will show like this. (Ex. 3 dots will be visible and then + 5 more)

47.00	For choosing categories, Gayathri suggested having filters just like we have for memories and condolences and all under 'Choose Your Theme', instead of a drop down. Only if we have 4-5 limited categories.
1.06.00	Categories and sequence of the themes. • Classic & Color Block as one • Soft Gradient – 2 New Themes • Rename the 'Default' as 'Sky' and move to the down currently and take it off later. (After the tomorrow's Release)
1.18.14	Filters for Memories & Condolences are fine. There is no need to shuffle Memories & Condolences anymore.

Actionable for Tekyz

Time in Video	Actionable
15.00	Switch from the Column to Row for the Memories and Condolences, while having the latest post on top. (Ex. If a new memory or a condolence is added, currently it does column first. But it should be rows.) (After Tomorrow's Launch)
16.50	Place the new templates on the top.
20.00	Increase the font size and image portion appropriately

25.00	Add these two new themes for 'Soft Gradient'.
1.00.35	Rohan to update one of the Figma's so that all margins are correct and then use that one as a standard.
1.07.30	Before Tomorrow's Launch Tekyz will complete the following work. ● Fix the header color attribute ● Rename the 'Default' as 'Sky' and move to the down currently. ● Move Soft gradient in place of default. ● Complete the two new themes for 'Soft Gradient'.

Agreed Points by Tekyz

Time in Video	Agreement
1.09.44	For the themes of 'Soft Gradient' Tekyz doesn't need color attribute spreadsheet anymore, they have pulled out from Figma. But they will need it for the next theme.
1.14.00	Memorial pages are built on Ruby
