

Personal note from Denise Family

Our Mother was such a beautiful woman who was full of life. It hurts deeply to have lost such a vibrant and loving person. She loved life, she loved to travel, dance, play her music and have a good time. One thing about our mom is she loved shopping, make up and her fashion. You would never catch her with a bad hair day. She was such a giving person and was always there for every celebration. She did not miss any of her Grand Kids graduations, she would be right there front and center. We are so thankful for all the memories and life she gave us. It is very difficult to find the words to express how much she meant to us. She was a very private person and would never let anyone know what she was going through, she always had this big, beautiful smile. This is such a disbelief to us. The whole thing is so unreal, something we were not prepared for. We appreciate all the love and warm wishes from everyone.
