Requests

We would like to make a book of Pete's legacy. We know that he touched many lives and is connected to each of you in unique and special ways. We are asking anyone who knew him to write to us of the memories that you shared with him - how he impacted you, what you experienced together, how he lived, something you will always remember about Pete and even share photos.

For those in attendance, please come as you are and if you would like, wear Citadel blue.
