Dear Jerry

Thank you for showing us Prospect Park
I've been in prospect park alot of times
But I have never been there to see so
Many birds, like we did today. When we
were on the trip it was alot of fun. We
saw alot of birds and I enjoyed
learning about them. We learned about -
crows, ducks and woodpeckers and alot
of other birds. They all were very
interesting too. We had alot of fun I
will remember that some birds make
their nests out of twigs, and some out
of sticks. Crows sometimes stay on the
ground, they always fly and crows walk
a little like chickens.

Yours truly

Ellen
